Primary Metals National Enforcement Program

(CPL-03-00-013)

After careful consideration and review, the department concludes the NEP for Primary Metals (CPL 03 00 -013) is in the best in interest of all working Hoosiers. Accordingly, IOSHA will commence work on this NEP on or after August 1, 2011.

A copy of the NEP is attached. IOSHA adopts the plan verbatim and there are no changes or differences between the federal and state program.
